BUSA 208	Business Analytics	3
BUSA 201	Business Communication and Professionalism	3

Business majors are encouraged to take the Math Diagnostic upon acceptance to CWI if they did not submit ACT or SAT scores for math placement; an adequate math placement score (or equivalency) is a prerequisite for ACCT 201, BUSA 207, and MATH 143. The Math Diagnostic will inform the student if a review course such as MATH 097, MATH 098, or MATH 099 is needed prior to enrolling in MATH 143 or MATH 160. Students should select MATH 143 or MATH 160 based upon the math requirements of the transfer institution they plan to attend. MATH 143 is the recommended GEM 3 course unless the students' preferred transfer institution requires Survey of Calculus (MATH 160).

This general education (GE) course is recommended by the department as the most beneficial GE option for students in this program. Please note that students may fulfill their GE requirement by completing another course from the applicable general education category.

This course fulfills the Ethical Reasoning requirement for an associate degree from CWI.

Course must come from a different discipline.

#### **Program Learning Outcomes**

Upon successful completion of this program, students will be able to:

- · Connect with the business community.
- Engage with community members in experiential learning opportunities through class assignments.
- · Connect with peers through case studies and group projects.
- · Navigate and discuss new technologies and their impact in the workplace.
- · Apply knowledge to frame and solve problems.
- Discuss current events in relation to business practices and theory.
- · Develop technology skills for business purposes.
- · Identify the fundamentals of accounting.
- · Develop effective communication and writing skills for business situations.
- · Present information to a variety of audiences.
- · Develop and improve critical thinking and analysis skills.
- Explain basic marketing principles.
- · Identify the roles and responsibilities in business including personal accountability.
- · Discuss ethics and ethical dilemmas.
