

CYBERSECURITY - ASSOCIATE OF APPLIED SCIENCE DEGREE (AAS)

Explore More About This Program: <https://cwi.edu/program/cybersecurity>

Degree Quick Facts

- **Instructional School:** Science, Technology, and Math
- **Department:** Computer Science and Information Technology
- **Program Code:** CSEC.AAS
- **Program Type:** Career and Technical Education
- **Available Fully Online:** No
- **Eligible for Federal Financial Aid:** Yes

NOTE: Courses required for this program *may* have an additional fee; more information can be found on the [Special Course Fees](#) web page.

Degree Requirements

Course	Course Title	Min Credits
General Education Requirements		
GEM 1 - Written Communication course		3
GEM 2 - Oral Communication course		3
GEM 3 - Mathematical Ways of Knowing course		3
GEM 6 - Social & Behavioral Ways of Knowing course		3
GE Elective course		3
Major Requirements		
CSEC 111	Cybersecurity Essentials	4
CSEC 115	Introduction to Networks	4
CSEC 119	Introduction to Internetworking	4
CSEC 127	Server Operating Systems	4
CSEC 129	Fundamentals of Linux	4
CSEC 131	Introduction to Information Security	4
CSEC 246	Securing a Directory Services Infrastructure	4
CSEC 248	Advanced Cybersecurity	4
CSEC 252	Introduction to Programming for Cybersecurity	4
CSEC 255	Ethical Hacking and Countermeasures	4
CSEC 257	Introduction to Digital Forensics	4
CSEC 290	Cybersecurity Capstone	4
Minimum Credit Hours Required		63

Degree Plan: Fall Start

The course sequence listed below is strongly recommended in order to complete your program requirements. Many Career and Technical Education (CTE) courses have prerequisites and/or corequisites that have been accounted for within this course sequence plan. Please register for your major requirements each semester as shown below using the Student Planning tool in myCWI. Consult your advisor for any questions regarding this plan.

NOTE: The required general education courses may be completed during any semester the student prefers, including summer semesters.

NOTE: The degree plan below is for the traditional, in-person option. Students interested in the accelerated option should meet with their advisor for additional information and assistance with course planning.

First Year		Credit Hours
Fall		
First 8-Week Course Session		
CSEC 115	Introduction to Networks	4
Second 8-Week Course Session		
CSEC 119	Introduction to Internetworking	4
Full 16-Week Course Session		
CSEC 111	Cybersecurity Essentials	4
GEM 3 - Mathematical Ways of Knowing course		3
Total Semester Credit Hours		15
Spring		
First 5-Week Course Session		
CSEC 127	Server Operating Systems	4
Second 5-Week Course Session		
CSEC 129	Fundamentals of Linux	4
Third 5-Week Course Session		
CSEC 131	Introduction to Information Security	4

Full 16-Week Course Session		GEM 6 - Social & Behavioral Ways of Knowing course		3	
<u>GEM 1 - Written Communication course</u>				3	
Total Semester Credit Hours		Total Semester Credit Hours		18	
Second Year		Spring			
Fall		First 8-Week Course Session			
First 8-Week Course Session		CSEC 257 Introduction to Digital Forensics			4
CSEC 248 Advanced Cybersecurity		Second 8-Week Course Session			
Second 8-Week Course Session		CSEC 290 Cybersecurity Capstone			4
CSEC 252 Introduction to Programming for Cybersecurity		Full 16-Week Course Session			
Full 16-Week Course Session		CSEC 255 Ethical Hacking and Countermeasures			4
CSEC 246 Securing a Directory Services Infrastructure		<u>GE Elective course</u>			3
GEM 2 - Oral Communication course		Total Semester Credit Hours			15
		Minimum Credit Hours Required			63

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Apply computational, communication, and human relations skills to meet industry expectations.
- Demonstrate safety practices per industry standard.
- Display a working knowledge of implementing, managing, and securing a network infrastructure including web servers, email servers, and file and print servers as required by industry.
- Articulate the common body of knowledge (CBK) for security professionals with two years of security experience as required by industry.
- Demonstrate industry standard proficiencies in network penetration testing, "white hat" hacking, and deployment of preventative countermeasures.
- Implement forensically sound techniques in crime scene investigation including the collection, processing, preservation, and analysis of forensic evidence.
- Meet CompTIA Security+ Certification requirements.
- Exhibit competencies of Written Communication (GEM 1), Oral Communication (GEM 2), Mathematical Ways of Knowing (GEM 3), Social and Behavioral Ways of Knowing (GEM 6), and other approved three-credit general education course.
