

DRAFTING TECHNOLOGY

Explore More About This Program: <https://cwi.edu/program/drafting-technology>

Program Description

The Drafting Technology program is designed to prepare students to meet the employability demands of varying engineering, architectural, and manufacturing firms. In this program, students learn to design a variety of practical projects using the latest 3-D-modeling software. Graduates will be qualified as computer-assisted drafters who are able to solve basic design problems and provide engineering support.

Note: Registrations for Drafting Technology courses are restricted to students within the major.

Degrees and Certificates

- Drafting Technology - Associate of Applied Science Degree (AAS)
- Drafting Technology - Advanced Technical Certificate (ATC)
- Drafting Technology - Intermediate Technical Certificate (ITC)
