Program Description

The Academic Certificate in Entrepreneurship and Small Business Management at the College of Western Idaho equips students with a broad spectrum of business knowledge needed to take personal talents and skills and start a new business. In completing the courses required for this certificate, students will acquire business knowledge and expertise that could increase the chances of a successful new business. It also introduces students to core methods for professional success like network creation, team building, and idea communication.

Through this program, you will have the opportunity to build a professional network and gain an understanding of industry-leading tools that will help you navigate the necessary components of starting a business.
