The course sequence listed below is strongly recommended in order to complete your program requirements. Many Career and Technical Education (CTE) courses have prerequisites and/or corequisites that have been accounted for within this course sequence plan. Please register for your major requirements each semester as shown below using the Student Planning tool in myCWI. Consult your advisor for any questions regarding this plan.

NOTE: The required general education courses may be completed during any semester the student prefers, including summer semesters.

The Fire Service Technology Associate of Arts degree offers two options for completion:

Fire Service Technology Option 1 requires completion of FIRE 101 Fire Fighter, which involves classroom instruction, handson demonstrations, and participation in live burns. Additionally, upon successful completion of FIRE 101, students are afforded an opportunity to take the IFSAC Firefighter I exam, proctored by Idaho Fire Science Technology. NOTE: The choice to complete FIRE 160, FIRE 165, and FIRE 170 instead of FIRE 290 is only available to students who select this option and successfully pass FIRE 101.

<u>Fire Service Technology Option 2</u> provides a classroom learning experience for students of all ages and abilities <u>without</u> skills manipulation or live burn participation.

Select the appropriate Degree Plan below based on which option you would prefer.
