## Program Description

The Geography program promotes the discovery and broad communication of knowledge about Earth's physical and cultural environment and the interrelationships between them. Our multidisciplinary approach to this study emphasizes contemporary concepts, use of geospatial technologies, and critical thinking.

Careers available to students include teachers, urban planners, business, nonprofit organizations, forestry, social service, cartographers, global-positioning specialists, and government jobs.

Completion of the program is designed to result in an Associate of Arts degree and meets the general-education requirements at all Idaho public universities. Course selection should be coordinated to meet requirements for your intended transfer institution (if known).
