

# HEALTH SCIENCE - ASSOCIATE OF SCIENCE DEGREE (AS)

---

Explore More About This Program: <https://cwi.edu/program/health-science>

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Apply the scientific method and scientific reasoning to critically evaluate issues in human health.
- Describe the relevance of specific scientific principles to the human experience within health and medicine.
- Evaluate multiple behavior change theories and develop options for implementation for personal application, health education, and/or promotion.
- Understand the historical development, key components, and current trends of the U.S. health care system.
- Understand the principles of epidemiology, biostatistics, and surveillance and be able to analyze how behavior can impact global health.
- Utilize the language of medicine and possess the ability to effectively communicate within the industry.
