Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Advocate for patients and families in ways that promote their self-determination, integrity, and ongoing growth as human beings. (Outcome: Human Flourishing)
- Make judgments in practice, substantiated with evidence that integrates nursing science in the provision of safe, quality care and promote the health of patients within a family and community context. (Outcome: Nursing Judgment)
- Implement one's role as a nurse in ways that reflect integrity, responsibility, ethical practices, and an evolving identity as a nurse committed to evidence-based practice, caring, advocacy, and safe quality care for diverse patients within a family and community context. (Outcome: Professional Identity)
- Examine the evidence that underlies clinical nursing practice to challenge the status quo, question underlying assumptions, and offer new insights to improve the quality of care for patient/families and communities. (Outcome: Spirit of Inquiry)

(Outcomes adapted from the NLN Educational Competencies for AD/Diploma Nursing from Monograph Draft of Educational Competencies for Nursing, 2010)
